## EXPERIENCE

### **J.P. Morgan Chase & Co., Houston TX — Associate**

May 2018 - Nov 2020

Helping to modernize internal monolithic legacy applications, whilst providing new functionality to the business by utilizing expertise in modern, preferably functional, coding standards.

Significant time spent adopting best-practice DevOps by fostering interpersonal Developer-Operations relationships, utilizing proper VCS practices, developing CI/CD pipelines, and creating bare-metal infrastructure orchestration patterns.

Thrived in a modern, startup-like environment; proficient in defining Spring Boot microservices from scratch and deploying them to internal Kubernetes clusters. SME for pipeline development for both modernized and legacy sides due to DevOps experience.

*Java, Bash, Groovy, Oracle RDB, Documentum, ActiveMQ, Jenkins, Docker, Puppet, Maven, Kubernetes, Spring Boot, Apache Kafka*

### **Midwest Insurance Co., Springfield IL — Application Developer**

Aug 2017 - April 2018

Maintaining and modifying legacy workman's compensation software StoneRiver PowerSuite, and designing, testing, and maintaining Java-based integrations between Midwest and its partners.

*Java, Oracle SQL, Jboss, Spring Batch, EJB, Hibernate, Puppet, Vagrant*

### **Illinois State University, Normal IL — Student Java Developer**

Dec 2015 - May 2017

Designing, deploying, and maintaining integrations between multiple on-campus departments through implementations of Enterprise Integration Patterns with the Apache Camel framework on top of the JBoss Fuse Enterprise Service Bus.

*Java, Junit, Groovy, Apache Camel, Maven, OSGI, Jboss Fuse ESB, Fabric8*

## EDUCATION

### **Illinois State University, Normal IL — Bachelor's in Comp. Sci.**

Sep 2012 - May 2017

### **Elgin Community College, Elgin IL — Associate in Arts**

Jun 2013 - May 2017

## LANGUAGES

- Java
- Bash
- Groovy
- Elisp
- Ruby

## SKILLS

- Linux
- Git
- Maven
- Emacs
- Vim
- RegEx
- TDD
- Docker

## HOBBIES

- Jazz Trombone
- Music Theory
- Meditation
- Retro Gaming
